Below is our list of sermons and other biblical information videos that we recommend viewing to further your understanding of the Bible and Biblical Christianity. Please note this is not a complete list of what is good out there, but rather more of a starter list. There truly is a lot of great stuff, but we share these as we know they lean almost exclusively on exactly what the Bible teaches.

As you browse the internet for additional content, always be on the alert for “false teachings” and “false prophecies”. There are many religious leaders who want to “tickle your ears” with what they know you want to hear. Here is an important warning from the Apostle Paul given to his protégé Timothy on why it is critical to correctly teach the message of Jesus Christ. It was written almost 2,000 years ago and is still true today.

“For the time will come when they [the audience] will not endure sound doctrine; but wanting to have their ears tickled, they will accumulate for themselves teachers in accordance to their own desires, and will turn away their ears from the truth and will turn aside to myths.” 2 Timothy 4:3 – 4

When following Christ, you cannot pick and choose what suits you. The day will come when you will be judged, and you won’t be able to argue with God about your choices.

So, bear in mind, if someone says they are reading from the Bible – or telling you that what they say comes from the Bible – and they fail to give you the actual Scripture location (e.g., Matthew 5:13), then beware. You always want to be able to look up what is being said to make sure the speaker is not only quoting the Bible accurately but is also not taking a verse out of context and giving it meaning that God never intended.
